During my internship, I gained an understanding of the use of programs in the securities market, as well as how clearing and custody services are conducted. I studied how market fluctuations impact stock trading and explored the various derivative instruments used and their operations. This theoretical knowledge was complemented by hands-on experience in both the marketing and practical aspects of the field.

Philip Morris International

ezd merchandiser

Mayıs 2015 - Eylül 2015 (5 ay)

Ankara, Turkey

I worked on a project-based assignment for five months as a full-time Ezd-Merchandiser with REİS RS GIDA DAĞ. PAZ. SAN. TİC. A.Ş., one of the distributors of PHILIP MORRIS SABANCI. During this time, I worked six days a week, traveling to various retailers using company vehicles. My responsibilities included developing strategies to increase sales, enhancing brand perception, and identifying which retailers to invest in. I focused on business development, sales growth, and marketing.
